

AZUMO MG

COMPOSITION: 80 % SULPHUR (S) WG
FUNGICIDE – ACARICIDE

WG

NON ADR
PRODUCT

DESCRIPTION: Sulfur formulated in the form of granules dispersible in water, indicated as a fungicide and acaricide treatment for application on its own or in combination with more products in water.

ADVANTAGE

- ✓ Preventive and curative effect against oidium and mites.
- ✓ Excellent wettability and dispersion in water.
- ✓ Greater coverage of the vegetal surface.
- ✓ High compatibility in mixtures with other phytosanitary products.
- ✓ It does not generate resistances.

WHY SHOULD I USE IT?

- ✓ AZUMO MG presents an exclusive formulation that gives it high performance for storage and a capacity to withstand high concentrations in water, both alone and in combination with other phytosanitary products.
- ✓ The reduced particle size of the sulfur favours a high coverage of the plant part, providing a greater prevention of oidium incidence the formulated presents an excellent wettability and dispersibility in water.

RECOMMENDED DOSAGE

CROP/SPECIES	PLAGUE	DOSE	SAFETY TERM (days)
Cereals	Oidium	0.2-0.5%	N/A
Deciduous fruit trees	Red spider/Eriophites Oidium	0.2-0.5%	N/A
Sub)tropical Fruit	Red spider/Eriophites Oidium	0.2-0.5%	N/A
Horticultural	Mites/ Oidium Oidiopsis/Red spider	0.2-0.5%	N/A
Hop	Red spider/Oidium	0.2-0.5%	N/A
Olive tree	Red spider/Bold	0.2-0.5%	N/A
Grapes (wine & table)	Red spider/Oidium Erinosis	0.2-0.5%	N/A
Sugar beet	Red spider/Oidium	0.2-0.5%	N/A
Strawberries and other red fruits	Mites / Red Spieder Oidium	0.2-0.5%	N/A
Ornamental	Red spider/ Oidium	0.2-0.5%	N/A

PACKAGING

• 50 g / 500 g / 5kg / 10kg / 25 kg
