

SCOLTI FLOW

FOLIAR APLICACION

EC FERTILIZER

CFP 1 (C) (II) (a) (i)

Simple inorganic fertilizer based on of micronutrients

UFI: 2F90-K06Q-600R-KNEE

SC

PRODUCT
ADR

DESCRIPTION: Concentrated suspension of elemental sulfur and copper from oxychloride, to be applied as foliar spray. Scolti Flow has a higher nutritional value than conventional products as it is a combined formulation of two nutrients: elemental sulfur and copper.

ADVANTAGES

- ✓ Hostile environment for mites and fungi.
- ✓ Provides a supply of copper throughout the crop cycle.
- ✓ It is essential in cellular respiration and photosynthesis, favoring the chlorophyll generation.
- ✓ Promotes the formation and maturation of spikes.
- ✓ Avoid leaf deficiency, especially in the flowering season.
- ✓ It stimulates the primary metabolism of carbohydrates and proteins in the plant increasing its natural vigour.
- ✓ It does not generate stress in the plant after its application.
- ✓ It does not produce burns on the leaves.
- ✓ Covering of plant tissue without producing stains on fruits or leaves.

PACKAGING

• 5 L
(Optional: 1 L / 5 L / 20 L)

COMPOSITION

• Elemental Sulphur (S)	20 %
Sulphur trioxide (SO ₃):	50 %
• Copper (Cu):	20%

RECOMMENDED DOSAGE

- Foliar application
 - Little deficiency: 0.25-0.4 L/hL
 - Moderate deficiency: 0.4-0.6 L/hL
 - Severe deficiency: 0.6-0.75 L/hL
- Apply a minimum of 2.5 L/ha per application
